

BriTec®

REDEFINING RENDERING CLEANING

Earth Ready®

NSF Certified

IN PLANT OR ON VEHICLES BRITec® DOES IT ALL

When cleaning equipment or vehicles used in the rendering industry you need a reliable, affordable

solution that will cut through fat and protein-coated surfaces, and meet the highest standards for performance and safety. CSI® is a leader and authority of environmental cleaning products.

Safe, Non-Acid Solution

Fast-acting formula contains no dangerous, toxic hydrofluoric acid (HF) or ammonium bifluoride (ABF) ingredients to prevent acidic safety and health hazards.

Proven Results in Rendering Operations

The only frictionless cleaning product with the proven ability to remove even the heaviest fat, protein, oil and road film. Let us evaluate your facility and show you how to get dramatic results... Guaranteed!

Value of BriTec®

- Diagnose and solve cleaning issues
- Train and school personnel with new cleaning techniques
- Faster and safer plant cleaning
- BriTec® is safe for workers to apply
- Biodegradable product and acceptable to waste water treatment

BriTec®
