

CSI Issued US Patent for eyeSIGHT.one

Cleaning Systems, Inc. (CSI) of De Pere, Wisconsin is pleased to announce **eyeSIGHT.one** was issued US Patent No.10,488,244, for its unique design and capability.

eyeSIGHT.one by CSI provides a technological breakthrough in the car wash industry allowing for a quick, clean and easy chemical usage measurement that saves a tremendous amount of time and money.

According to Doug Marquis, Vice President of Business Development, "As the car wash industry continues to demand more accountability and consistency, eyeSIGHT.one brings it to a level where virtually anyone can take a real-time measurement and know exactly how much is being used."

Visit www.eyesight.one for more details

The advanced technology helps to minimize waste of car wash chemical as it is being stored. Additionally the design avoids contact with skin and potential discoloration, unavoidable spills, and limits the manual labor required to measure by hand.

"Intended to be used only with CSI's Lustra Ultraflex system, eyeSIGHT.one was designed with a goal in mind that any employee can use it, creating a level of transparency between all parties to control operating costs, improve safety, and maintain an extraordinary customer experience," said Dave Krause, President and CEO of CSI.
